1. [REDACTED] reported that bids had been received for the grading and drainage contract at Langley. The low bid was \$460,000 and the high \$1,113,000, with the great majority ranging around \$500,000. Inasmuch as we had allowed \$1,030,000 in our estimate these appear to be very good and will enable us to save, roughly, \$500,000 from that which we had allocated.

3. [REDACTED] buzzed me to say that the Office of the Director had received a very elaborate Christmas card from the Office of Training which he understood had been produced by the Graphics Section on Government time with Government materials, etc. I told him that I would look into it.
